PART IV. AUSTRALIAN CAPITAL TERRITORY: DWELLINGS AND HOUSEHOLDERS

PREFACE

This publication contains particulars of the characteristics of dwellings and of householders in the Australian Capital Territory recorded at the 1961 Census.

The distribution of dwellings is shown by districts and by Urban and Rural Divisions of the Territory. Dwellings are classified by a number of characteristics (i.e. Class of Dwelling, Material of Outer Walls, Number of Rooms, Number of Inmates, Date of Building, Weekly Rent (unfurnished), and Facilities) which are shown for the Territory as a whole and for Urban and Rural Divisions. Comparisons are also made with the 1954 Census. Certain of these dwelling characteristics are also shown in cross-classification with each other.

For private dwellings, the nature of the householder's occupancy of the dwelling is shown in conjunction with certain characteristics of the dwelling (Class of Dwelling, Number of Rooms, Date of Building) and also in conjunction with other characteristics of the householder (Sex, Age, Conjugal Condition, Occupational Status, Industry and Period of Residence in Australia for Householders born outside Australia).

This is one of five Parts which will constitute the complete Census Volume for the Territories, viz., Part I.—Northern Territory: Population; Part II.—Northern Territory: Dwellings and Householders; Part III.—Australian Capital Territory: Population; Part IV.—Australian Capital Territory: Dwellings and Householders; Part V.—External Territories: Population and Dwellings. A similar Volume is being prepared for each State, and for Australia as a whole. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of this Part follow the Table of Contents.

Owing to limitation of space a number of the cross-classified tabulations of characteristics of dwellings and householders have been published only for Australian Capital Territory as a whole. However these cross-classifications are available separately for the Metropolitan Urban and Rural Divisions on application to the Commonwealth Statistician.

EXPLANATORY NOTES

Urban and Rural Divisions (Divisions of State). The Urban and Rural Divisions in the Australian Capital Territory as defined for Census purposes and as referred to throughout this Part, are constituted as follows.

Metropolitan Urban. Comprises the City of Canberra. This division was introduced at the 1954 Census for the first time. Prior to 1954, the City of Canberra was regarded as " Other Urban " (or " Urban Provincial ", as this division was then known). When comparing dwellings data for the 1961 Census with that for Censuses prior to 1954, this change must be borne in mind. There were minor changes in the boundary of the City of Canberra between the 1954 and 1961 Censuses, but these do not affect comparison of the Census results.

Rural. Comprises the whole of the Australian Capital Territory outside the City of Canberra and includes that portion of the Territory located at Jervis Bay. The Rural Division is not affected by the changed urban status of Canberra referred to above, and the statistics relating to it are comparable from Census to Census.

Migratory. Refers to persons not elsewhere enumerated who at midnight between 29th and 30th June, 1961, were travelling in ships in Territorial waters or were travelling on long-distance trains, motor-coaches or aircraft. There was no population enumerated as migratory at the Census of 30th June, 1961, in the Australian Capital Territory.

DEFINITIONS

Occupied Dwelling. An occupied dwelling is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has therefore a very wide reference and includes, in addition to houses and flats, a great variety of " dwellings " ranging from a single-roomed shack to a multi-roomed hotel or institution. Occupied dwellings are classified into " private " and " other than private " dwellings.

Private Dwelling. Private dwellings are further classified into the following four categories—

Private House. Private Houses include houses, sheds, huts, garages, etc., used for dwelling purposes, and shared private houses for which only one Householder's Schedule was received.

Share of Private House. A Share of a Private House is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received.

Flat. A Flat is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities.

Other Private Dwelling. These include private dwellings such as rooms, apartments, etc., which are parts of buildings but are not self-contained units.

Other than Private Dwelling. These include Hotels; Motels; Boarding Houses, Lodging Houses and Hostels; Educational, Religious and Charitable Institutions; Hospitals; Defence and Penal Establishments; Police and Fire Stations; Clubs; Staff Barracks and Quarters, etc.

Unoccupied Dwellings. These include vacant dwellings available for sale or renting; dwellings such as " week-ender ", " holiday home ", " second home ", " seasonal workers' quarters ", which were not occupied on the night of the Census; dwellings normally occupied but whose usual occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on the night of the Census; dwellings described as " to be demolished ", " condemned ", " deceased estate ", " exhibition home ", etc., and buildings constructed as dwellings but used for non-dwelling purposes on the night of the Census. The total number of unoccupied dwellings shown for any area must not, therefore, be read as representing the number of vacant houses and flats available for sale or renting.

Campers-out. Refers to those people (other than " Migratory " (*see* above)), who were not enumerated in a dwelling. Included are such people as those camped beside their vehicle by the roadside, drovers and other itinerants.

Rooms. These include kitchen and permanently enclosed sleep-out, but do not include bathroom, pantry, laundry or storehouse. Rooms in non-attached buildings are included only if used for living or sleeping purposes by the household group. Rooms recorded for a " share of private house " include only those used by the occupier of the share. A shared kitchen or living room is recorded only for the share occupied by the owner or principal tenant.

Rent. The data relating to rents are only for dwellings rented unfurnished. The figures representing " rent not stated " include rent-free dwellings, those rented on a furnished basis and those for which the rents were not applicable (e.g., for shop and dwelling combined).

Particulars of full-blood aboriginals and dwellings occupied solely by them are excluded throughout.

(b) Portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received. (c) This information was furnished by occupants of dwellings at 30th June, 1961. For a number of reasons the figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954, e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2.
(d) After 30th June, 1954, but year not stated.

(*a*) Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received. (*b*) Includes kitchen and permanently enclosed sleep-out, but does not include bathroom, pantry, laundry or storehouse. (*c*) This information was furnished by occupants of dwellings at 30th June, 1961. For a number of reasons the figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954, e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2. (*d*) After 30th June, 1954, but year not stated.

(*b*) Portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received. (*c*) Prior to 1961, single self-contained dwellings attached to or situated above offices, shops, etc., were classified as private houses irrespective of the description stated in the Householder's Schedule. In 1961 such dwellings if described as self-contained flats were classified as flats. (*d*) Includes tenanted dwellings which were rent-free, those rented on a furnished basis and those for which rents were not applicable (e.g. shop and dwelling combined).

For a number of reasons the figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954, e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2. (*e*) After 30th June, 1954, but year not stated.

(*e*) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
